

CERTIFIED SUPPLY CHAIN SECURITY MANAGER

5 DAYS MASTER PRACTITIONER
LEVEL TRAINING PROGRAM BASED ON

ISO 28000:2007 SUPPLY CHAIN SECURITY MANAGEMENT SYSTEMS

WHY SHOULD YOU ATTEND?

Certified Supply Chain Security Manager training enables you to develop the necessary expertise to support an organization in establishing, implementing, managing and maintaining a Supply Chain Security Management System (SCSMS) based on ISO 28000. During this training course, you will also gain a thorough understanding of the best practices of Supply Chain Security Management Systems and be able to improve efficiency in managing potential security risks and their impacts in an organization's supply chain.

After mastering all the necessary concepts of Supply Chain Security Management Systems, you can sit for the exam and apply for a "BEMCON Certified Supply Chain Security Manager" credential. By holding a BEMCON Certified Supply Chain Security Manager Certificate, you will demonstrate that you have the practical knowledge and professional capabilities to implement ISO 28000 in an organization.

WHO SHOULD ATTEND?

1. Managers or consultants involved in Supply Chain Security Management
2. Expert advisors seeking to master the implementation of a Supply Chain Security Management System
3. Individuals responsible for maintaining conformance with SCSMS requirements
